

Work Experience

General Manager

Domino's • Colorado

March 2019 to November 2022

I have worked as General Manager of several Domino's, including high volume locations. I was promoted to the the position a little over a year after starting as an insider. Stores I ran did sales as high as \$60k a week and had as many as 40 employees reporting to me.

As a general manager my responsibilities included hitting labor and service time goals, guaranteeing customer satisfaction and handling any issues a customer might have, training, scheduling, mediation, inventory management, placing food and supply orders, problem solving, implementing food safety procedures and policies, and developing a positive store culture to retain employees.
